

**Part Number : J5804, FJAF5804TU**

### **High Voltage Switch Mode Applications**

1. High Speed Switching
2. Suitable for Switching Regulator and Motor Control and CRT TVs 21" - 29"
3. High collector to base voltage VCBO
4. Satisfactory linearity of forward current transfer ratio  $h_{FE}$

### **Features**

Mounting Style : Through Hole

Power Rating : 60 W

Number of Channels : Single Channel

Polarity : NPN Type

Collector Emitter Voltage (VCEO) : 750 V

Collector Base Voltage (VCEO) : 1500 V

DC Collector Current : 10 A

Manufacturers : Fairchild

Package : TO-3P Type
