

# NRF51822 BLUETOOTH 4.0 MODULE V1

NRF51822 Module Bluetooth Module ble4.0 Development Board 2.4G Low Power Onboard Antenna Bluetooth 4.0

## **Feature:**

Core51822 use Rev3 version chip, double RAM to 32 KB, support higher version of the SDK, all program is compatible with the original Rev2 version of the chip.

Based on the bluetooth module 4.0 nRF51822, small size, stable and reliable, and can be directly used in the product.

nRF51822 is a multi-protocol single-chip solution for CHAODI power consumption wireless applications (ULP wireless applications). It integrates Nordic high wireless transmitter, and supports Bluetooth(R) low energy and dedicated 2.4GHz protocol stack.

## **Parameters :**

The main control chip: nRF51822

Communication distance: 30 m (condition: empty area / 1 m rate)

Working frequency: 2.4 GHz

Operating voltage: 2.0 V to 3.6 V

Temperature range: - 40 °C ~ 85 °C

Size: 24.5 mm x 32.26 mm (PCB)

Interface: in addition to the P0.26 and P0.27, all I/O interface

Row needle spacing: 2.00 mm

On both sides of the row needle spacing: 18.00 mm

Antenna: on-board antenna

### **Application:**

Wearable devices

Bluetooth intelligent application

Mobile phone peripherals

The RF smart radio tags

Intelligent household appliances

Industrial control

Data acquisition system

### **nRF51822 introduction :**

NRF51822 is an ultra low power wireless applications (ULP wireless applications) of multi-protocol single chip solutions.

It integrates the Nordic first-class wireless transmitter, at the same time support Bluetooth (R) low energy and special 2.4 GHz protocol stack.

Basic situation is:

More than 2.4 GHz radio frequency agreement

The 32-bit ARM processor architecture (M0

A 128 - bit AES hardware encryption processor

256 KB flash / 32 KB of RAM

PPI programmable peripheral interface

A fully functional digital interface: SPI/I2C/UART

10 the ADC

Programmable output power: + 4 DBM to - 20 DBM

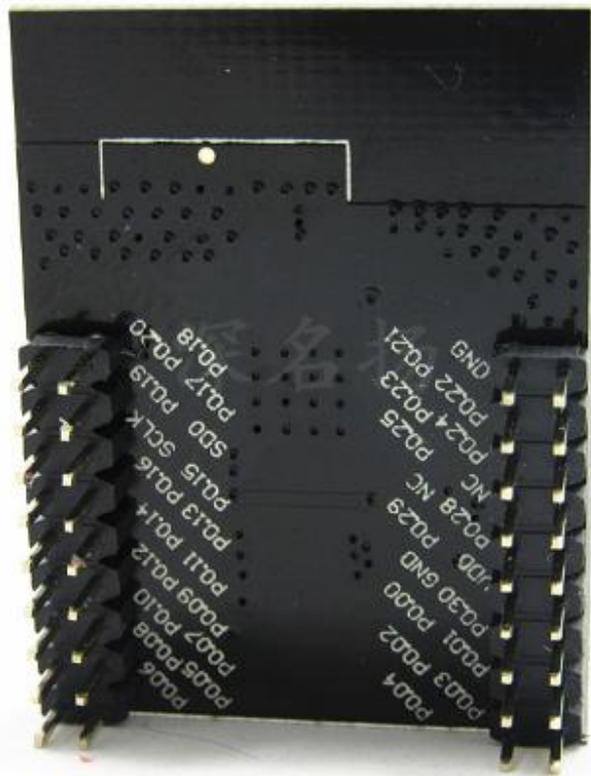

Application development and completely independent in the protocol stack

Fully compatible with NRF24L series

Compatible with NRF51xxx series tube feet

Global independent power management

Working voltage range (1.8 V ~ 3.6 V)
